## (2) Complete Facilities of Former Leading Industrial Vacuum Manufacturer

Over (60) Injection Molding Machines, Extruders, Vacuum Component Manufacturing Lines, CNC & Manual Machine Tools, Stamping Presses, Fabricating Equipment, Quality Assurance, Packaging Equipment, Material Handling & More

### Transfer & Straight-Side Presses

The Company's primary machinery and equipment assets consist of plastic injection molding machines and other plastics-manufacturing equipment; motor assembly lines; and filter manufacturing equipment.

**Injection Molding Machines** - Shop-Vac has (60) plastic injection molding machines, which are used to produce the vacuum cleaner bodies. The machines range in tonnage from 60 to 3,000-ton. The machines, which are as new as 2006, were manufactured by Milacron, Cincinnati, Cincinnati-Milacron, and Ferromatik-Milacron. In addition to the injection molders, the Company operates blow molders, thermoforming lines, and extruders.

**Stainless Steel Drum Forming Lines** - Arranged to produce 4 to 8-gallon x 11.25" diameter x 28 to 24-gauge drums. Machines include welders, drum curling & flanging machines, drum expanders, drum seamers & conveyance

**Motor Assembly Lines** - Shop-Vac has two motor assembly lines, both of which produce forced air motors.

**Filter Production Lines** - These lines consist of pleaters, wire-mesh machines, welders, sealers, ovens, and related finishing equipment. While select components of this line have been customized to produce Shop-Vac products, they can be modified to produce other filters.

**Fan Housing & Assembly Cell** - Components include welders, curling & bending machines, punches, balancers, test equipment & conveyance

**Plastic Hose Extrusion Lines** - Components include extruders, corrugators, cooling troughs, pullers, vacuum loaders, temperature controllers and vacuum pumps.

### Other Major Production Equipment

- CNC Turret Punches & Press Brakes
- Quality Assurance / Test & Measurement
- Cranes, Forklifts, Bulk Containers & Other Material Handling Equipment
- General Plant & Production Support Equipment

### Featured Assets:

#### Injection Molding Machines

- 85-Ton Cincinnati-Milacron Vista VT85-7
- 110-Ton Cincinnati-Milacron Vista 110-7
- 150-Ton Milacron Fanuc Roboshot S-2000i150A
- 220-Ton Cincinnati-Milacron Vista 220-17
- 310-Ton Cincinnati-Milacron Maxima 310MM-26
- 310-Ton Cincinnati-Milacron Maxima MM310-54 (8-Available)
- 330-Ton Milacron Fanuc Roboshot S-2000i330A
- 500-Ton Cincinnati-Milacron VH500-76
- 580-Ton Cincinnati-Milacron Maxima MM580-40 (2-Available)
- 580-Ton Ferromatik-Milacron Maxima MM580-40 (10-Available)
- 700-Ton Cincinnati-Milacron H700-165 (4-Available)
- 725-Ton Cincinnati-Milacron Vista VH725-232 (4-Available)
- 850-Ton Cincinnati-Milacron Magna MH850-288 (2-Available)
- 1300-Ton Ferromatik-Milacron Maxima MM1300-362 (3-Available)
- 2000-Ton Ferromatik-Milacron Maxima MG2000
- 2500-Ton Ferromatik-Milacron Maxima ML2500-769
- 3000-Ton Cincinnati-Milacron Maxima ML3000-362 (2-Available)

#### Plastic Extruders

- Milacron SPAK 75
- Milacron SPAK 100 (2-Available)
- Milacron SPAK 125 (2-Available) - New to 2014
- Milacron SPAK 175 (3-Available) - New to 2015
- Cincinnati-Milacron PAK 350 (New 2011)
- Cincinnati-Milacron PAK 450

#### Plastic Blow Molding Machines

- 90-Ton Cincinnati E90-S (2-Available)
